June 2018

Whether you are challenging yourself with a late-afternoon shoot, stepping out for an evening walk, or lingering on our restaurant patio, June is the month when we make up for all those 4:18 p.m. winter sunsets.

With 16 hours of sunlight, the summer solstice on Whidbey Island (Thursday June 21st) makes up for all those very long winter nights and short gloomy winter days.

Of the U.S. cities with more than 500,000

people, Seattle is the farthest north. Maps often conceal the fact that the Jet City (a.k.a. the Emerald City) is north of many large Canadian cities including Toronto, Montreal and Ottawa. So, when it comes to summer sunlight (among other things), our area is one of the best and a lot nearer to the polar bears than you may have thought!

But, don't expect all that daylight to cause a heat wave. The National Weather Service states we should be looking at sunny and partly sunny skies throughout the month

with highs in the upper 60s and 70s. Sunny and 70s... it doesn't get much better than that!

We're excited about the work we've done on our great new summer menu. We think you'll like it. Also, we have an exciting and busy lineup of weekend musical and shooting events throughout the month.

We hope you'll choose to celebrate some of your summer solstice celebrations with us.

See You At The Club!
